

## European PhD Award on Control for Complex and Heterogeneous Systems Call for application

The EECI PhD Award is given annually in recognition of the best PhD thesis in Europe in the field of Control for Complex and Heterogeneous Systems.

The aim is to encourage high-quality work amongst young researchers in their first research period. The prize consists of a certificate and a cash award.

**The domain of research of candidates should be included in the large multidisciplinary area of the control of hybrid nonlinear, complex heterogeneous systems, as well as embedded or networked systems.**

Application form [www.eeci-institute.eu/PhD-Award/](http://www.eeci-institute.eu/PhD-Award/) - Deadline 15 June each year

To be eligible for the award, the thesis must have been defended in Europe during the year prior the above deadline.

Candidates are required to submit the following documentation:

- ✓ Copy of the thesis
- ✓ Extended four- to six- page summary of the thesis describing the study and the contribution to the knowledge in control theory, and, if applicable, connections to industrial practice
- ✓ CV of academic and professional achievement, including a list of publications
- ✓ A letter of recommendation from the advisor
